Responsible Consumer Safety Tips

🚫 Avoid direct sharing and keep your personal consumption devices clean

 rượu

90%+ Isopropyl Alcohol is an effective and affordable way to clear any germs or pathogens off your pieces

Because COVID-19 is a respiratory illness, you may wish to limit your exposure to combustive smoke

Alternative delivery devices, such as vaporizers, can mitigate combustive smoke exposure

Chocolate

Use of edibles or tinctures can eliminate exposure to potential lung irritants entirely

Magnifying Glass

Cannabis from the unregulated market may possess unwanted adulterants that could harm one’s immune system

Brain

Remain vigilant of online misinformation like any claims cannabis or CBD can help cure or protect against this virus
